

ivo Steam Athena 8

Highly effective & compact commercial steam solutions.

iVo Steam machines are the groundbreaking results of careful research by a group of cleanliness and efficiency lovers.

They represent the latest innovation in modern multi-function cleaners. With the detergent facility, dirt and grime is moved incredibly fast, and then vacuumed away.

The hygienic water filter system ensures that no harmful residue is ejected into the atmosphere.

And of course, no costly replacement filters or bags!

Features and benefits

- Thorough cleaning and disinfection.
- Highly portable - only 15 kg.
- 8 bar pressure.
- Self descaling and continuous
